Introduction

Yoga&Meditation is essentially a spiritual discipline based on an extremely subtle science, which focuses on bringing harmony between mind and body. It is an art and science of healthy living.

The word 'Yoga' is derived from the Sanskrit root 'Yuj', meaning 'to join' or 'to yoke' or 'to unite'. As per Yogic scriptures the practice of Yoga leads to the union of the individual consciousness with that of the Universal Consciousness, indicating a perfect harmony between the mind and body, Man and Nature. According to modern scientists, everything in the universe is just a manifestation of the same quantum firmament. One who experiences this oneness of existence is said to be in Yoga, and is termed as Yogi. Its orientation to a comprehensive health, both individual and social, makes it a worthy practice for the people of all religious, races and nationalities.

Objectives of the Course

Yoga & Meditation education can supplement school and university education. It can prepare the students physically and mentally for the integration of their physical, mental and spiritual faculties so that the students can become healthier, saner and more integrated members of the society and of the nation.

Yoga & Meditation education helps in self discipline and self-control, leading to immense amount of awareness, concentration and higher level of consciousness.

Briefly the objectives of Yoga & Meditation education are.

1. To enable the students to have good health.
2. To practice mental hygiene.
3. To possess emotional stability.
4. To integrate moral values.
5. To attain higher level of consciousness.

All these objectives could be dealt with in an integrated manner.
